

Multiply: Fractions To Support Your Children

Course Level: Entry Level

Campus: Stafford

Subject Type: Science & Maths

Course Overview:

Would you like to find out more about how your children learn fractions in school? This BRAND NEW course explores how your children are taught this subject as part of the maths curriculum.

What's Covered:

This course focuses on specific fractions and percentages and is designed to empower parents to support their children in primary and secondary school. This comprehensive program will equip parents with the knowledge and tools to confidently assist their children with these fundamental mathematical concepts. Through engaging and interactive sessions, participants will gain a deep understanding of fractions and percentages, enabling them to effectively guide their children's learning at home.

On full completion of the course each learner will receive a £25 Amazon or supermarket voucher.

Entry Requirements:

There are no entry requirements, however you will need to be 19+ and reside in Staffordshire.

Assessment Information:

There are no formal assessments, but we will track your progress. To help us get a better understanding of your maths needs you will complete an initial assessment at the start of the course.

Fees and Financial Support:

This course is FREE and is open to adult learners aged 19+ who reside in Staffordshire.

Progression:

Once you have completed the course, you will have the option of progressing to a maths qualification or further learning to support you.

What else do I need to know?

This course has been funded by the Government's Multiply Project and is aimed at Staffordshire residents aged 19+. Please note that courses run subject to minimum viable class sizes.
