

Multiply: Algebra to Support Your Children

Course Level: Entry Level

Campus: Stafford

Subject Type: Science & Maths

Course Overview:

Would you like to be more confident with numbers to support your children with their maths homework?

This BRAND NEW basic algebra course will provide an overview of fundamental algebraic concepts and techniques and will equip you with the skills needed to excel in algebra to make maths homework a more enjoyable experience.

What's Covered:

Our caring and knowledgeable tutors will provide a detailed overview of fundamental algebraic concepts and techniques in an informal and approachable way. Whether you are a beginner looking to build a strong foundation or someone seeking a refresher, this course will equip you with the essential skills needed to excel in algebra, in order to support your children on their mathematical journey through school.

On full completion of the course each learner will receive a £25 Amazon or supermarket voucher.

Entry Requirements:

There are no entry requirements, however you will need to be 19+ and reside in Staffordshire.

Fees and Financial Support:

This course is FREE to adult learners aged 19+ who reside in Staffordshire.

Progression:

Once you have completed the course, you will have the option of progressing to a maths qualification or further learning to support you.

What else do I need to know?

This course has been funded by the Government's Multiply Project and is aimed at Staffordshire residents aged 19+. Please note that courses run subject to minimum viable class sizes.
