

Award in the Principles of Cyber Security

Course Level: Level 1

Campus: Newcastle

Subject Type: Accounting, Business, Esports, Computing & Travel

Course Overview:

Learn more about cyber crime and the risks and effects it has on individuals and organisations in the modern world. This course is a modern, up-to-date qualification covering aspects of e-safety and to protect against online threats.

What's Covered:

Studying this course, learners will develop their skills and knowledge of cyber crime and the risks and effects it has on individuals and organisations.

Throughout the course, adult learners will become more confident in understanding the routine protective methods used to maintain cyber security including the principles of vulnerability and penetration testing and user access control.

There is one mandatory unit and three key learning outcomes covered that support learners knowledge of :

- The Cybercrime Landscape
- Protective Methods to Maintain cyber security
- Legislation and Codes of Conduct for cyber security

Entry Requirements:

Learners will need to have a basic literacy and numeracy skills.

An IT qualification at Level 1/2 would be advantageous but interested in the topic of digital and IT security is essential.

Assessment Information:

The course is a series of assessments and portfolio based work.

Fees and Financial Support:

A range of financial support may be available for adult students to help towards the cost of your fees, equipment, childcare and/or other expenses while studying, depending on your personal circumstances and the course you are studying. For full details please visit www.nscg.ac.uk/finance or email charlotte.robinson@nscg.ac.uk

Progression:

The Level 2 Certificate in the Principles of Cyber Security begins straight after the completion of the Level 1 qualification

What else do I need to know?

The Level 2 Certificate in the Principles of Cyber Security begins straight after the completion of the Level one qualification.

How do I find out more?
