

# UK Shared Prosperity Fund: Introduction to Inventor

Course Level: Level 3

Campus: Stafford

Subject Type: Construction & Engineering

## Course Overview:

Explore the world of computer aided design by studying this introductory Level 3 course. Studying this course will give you the foundations to develop your knowledge further in engineering drawings, simulations, modelling and technical drawing.

## What's Covered:

During this 10-week course, our industry-specialised teaching team will help you to navigate the basics of industry-recognised computed aided design software to enhance your CV for career progression.

You will develop skills in the following areas:

- National and international standards and conventions for CAD
- Software and hardware knowledge to produce CAD drawings
- Produce and interpret CAD drawings
- Use CAD software to produce 3D drawings and views

## Entry Requirements:

To be discussed at the course interview.

## Fees and Financial Support:

This course is FREE to adult learners aged 19+ already working in this sector.

## Progression:

You could choose to progress onto a full Level 4 Higher Technical Qualification.

## What else do I need to know?

This course is funded by the UK Government through the UK Shared Prosperity Fund.

## How do I find out more?
