

UK Shared Prosperity Fund: Level 4 Introduction to Inventor (HTQ)

Course Level: Level 4

Campus: Stafford

Subject Type: Construction & Engineering

Course Overview:

Explore the world of computer aided design by studying this introductory Level 4 course. Studying this course will give you the foundations to develop your knowledge further in engineering drawings, simulations, modelling and technical drawing.

What's Covered:

During this 10-week course, our industry-specialised teaching team will help you to navigate the basics of industry-recognised computed aided design software to enhance your CV for career progression.

You will develop skills in the following areas:

- National and international standards and conventions for CAD
- Software and hardware knowledge to produce CAD drawings
- Produce and interpret CAD drawings
- Use CAD software to produce 3D drawings and views

Entry Requirements:

There are no formal requirements to apply for this course. However, the course aims to develop the skills and knowledge required to transfer to a Level 4 HTQ, and therefore it is advised that you already possess a relevant Level 3 qualification.

Fees and Financial Support:

This course is FREE to adult learners aged 19+ already working in this sector.

Progression:

You could choose to progress onto a full Level 4 Higher Technical Qualification.
