

# Introduction to CNC Programming

**Course Level:** Adult Leisure

**Campus:** Newcastle

**Subject Type:** Construction & Engineering

## Course Overview:

Delve into essential safety guidelines and fundamental skills necessary for CNC Programming.

## What's Covered:

This Introductory CNC programming course provides students with the fundamental knowledge and skills needed to operate and programme computer numerical control (CNC) machines.

Through hands-on practice and theoretical instruction, the course prepares learners to confidently create precise and efficient machining programs, laying a strong foundation for advanced CNC programming and manufacturing careers.

## Entry Requirements:

No entry requirements

## Fees and Financial Support:

This course is FREE to adult learners aged 19+. With a £30 materials contribution which must be paid on enrolment.

## What else do I need to know?

The course will run over one night per week, giving students the ability to learn quickly through 1 to 1 teaching and group tasks.

## How do I find out more?
