

Introduction to REVIT

Course Level: Adult Leisure

Campus: Newcastle

Subject Type: Construction & Engineering

Course Overview:

Discover the basics and fundamentals of AutoDesk Revit; a powerful Building Information Modelling (BIM) software used in architecture, engineering, and construction. This course covers essential REVIT tools and features, including creating and modifying 2D floor plans, 3D modelling and basic rendering techniques.

What's Covered:

A programme focused on teaching the basics and fundamentals of AutoDesk REVIT; a powerful Building Information Modelling (BIM) software used in architecture, engineering, and construction. This course covers essential REVIT tools and features, including creating and modifying 2D floor plans, 3D modelling and basic rendering techniques. Students will gain hands-on experience in building digital models of infrastructure, learning how to use REVIT's design, drafting, and visualisation tools. This course provides a solid foundation for beginners who want to develop REVIT skills for personal projects or to pursue further education and career opportunities in the design and construction industries.

Entry Requirements:

There are no entry requirements for to apply for this course.

Fees and Financial Support:

This course is FREE to adult learners aged 19+. With a £30 materials contribution which must be paid on enrolment.

What else do I need to know?

This course provides a solid foundation for beginners who want to develop REVIT skills for personal projects or to pursue further education and career opportunities in the design and construction industries.
