

Introduction to Office Administration and AI

Course Level: Level 1

Campus: Stafford

Subject Type: Computing, Technology & Esports

Course Overview:

This practical course offers an introduction to the key administrative and office skills needed for the modern workplace. Learners will develop confidence in tasks such as organising information, using office equipment, managing emails, and supporting day-to-day office operations. Ideal for beginners or those looking to refresh their skills, the course helps prepare learners for entry-level administrative roles across a range of sectors.

What's Covered:

During this 20 hour course you will be provide with a solid foundation in essential administrative and office skills. It will cover:

- Understanding the role of an administrator in a workplace
- Organising and managing information efficiently
- Using office equipment such as printers, scanners, and telephones
- Managing emails and basic correspondence professionally
- Introduction to filing systems, record-keeping, and data management
- Time management and prioritising tasks
- Customer service and communication skills in an office setting
- Health, safety, and confidentiality in the workplace

By the end of the course, learners will have the confidence and practical skills to support day-to-day office operations effectively and pursue entry-level administrative roles.

Entry Requirements:

There are no formal entry requirements for this course. It is suitable for beginners or anyone looking to develop or refresh their administrative and office skills. Learners should have a willingness to learn and an interest in working in an office or administrative environment.

Assessment Information:

There are no formal assessments, just supportive learning and activities in class. You will work through an individual learning plan and receive regular feedback from your tutor.

Fees and Financial Support:

This course is FREE to adult learners.

Progression:

After this course, you may choose to:
