What's Covered:

The aim of this course is to provide a programme of training leading to a nationally recognised qualification within the hairdressing industry. This qualification would enhance and compliment techniques required by individuals seeking employment in this profession.

The programme involves a study of technical units including styling, blow drying, setting techniques, colouring and cutting, health and safety, advise and consult with clients, and shampoo and condition hair scalp.

Full-time study is one academic year, number of days in college depends on your English and maths requirement which will also be enhanced during your programme via work related studies. 16-18 year olds who don't have grade 4 will be able to resit their GCSEs. 19 plus do not require GCSE to enrol.

Industry placement is part of the full time study programme. Previous accreditation may reduce the amount of learning required within this programme. You will learn by working in one of the training salons to develop your skills and carrying out assessments in our commercial salon on clients.
