

HNC Digital Technologies

Ofsted Outstanding Provider

Course Level: Level 4

Campus: Stafford

Subject Type: Computing, Technology & Esports

Course Overview:

The HNC in Digital Technologies offers a comprehensive curriculum designed to provide students with a strong foundation in digital concepts and practical skills. Students explore topics such as programming, big data and website development. Through hands-on projects and industry-relevant assignments, this course is designed to give you practical experience working as a digital communications manager and/or administrator with additional routes into Digital Marketing.

What's Covered:

The HNC in Digital Technologies will run in collaboration with the Stoke-on-Trent & Staffordshire Institute of Technology (SoTIoT) and is designed to help learners to develop as professionals in this sector. The course is taught by experienced industry professionals and aims to develop your theoretical and practical knowledge of computing which will get you equipped with the understanding and skills for success in employment within the competitive Digital Industry.

Digital specialists are in high demand as technology now plays a significant role in almost everything we do. This course combines the core principles of the field with a forward-looking approach to embracing and driving new developments.

If you're looking to gain the skills to advance your career in the fast-paced digital industry, then write the code to your future with a higher level digital qualification.

BRAND NEW

COURSE

At Level 4, we offer units which cover a wide variety of aspects:

- Professional Practice in the Digital Economy
- Innovation and Digital Transformation
- Cyber Security
- Programming
- Big Data & Visualisation
- Cloud Fundamentals
- Website Design & Development
- Management in the Digital Economy

At Level 5, we currently offer these units:

- Business Intelligence
- Internet of Things
- Emerging Technologies
- Planning Social Media Campaigns
- Digital Marketing
- Customer Value Management
- Pitching and Negotiating Skills

In additional to the course, it is recommended that learners seek employment in a Computing-related business.

Interested in part time study? Get in touch to find out more.

Entry Requirements:

All prospective students will be interviewed and assessed individually.

To study this course, you must be over 18 years old and have four GCSEs including English and Maths or equivalent and a Level 3 qualification or equivalent.

For mature candidates (over 21 years of age) who can evidence a satisfactory and relevant work experience portfolio, they would be favourably considered and academic requirements may be waived. Please contact our HE advisor for more information.

Fees and Financial Support:

There are two types of loans to help students cover the costs of their higher education course in college - tuition fee loans and living cost loans (also called maintenance loans). You pay these loans back when you finish your course and earn over £25,000. If you earn less than that, you won't have to repay anything. If you're earning more than that, we'll work out your repayments at 9% of your income over that amount.

Maintenance loans are only available to students studying on a full-time basis. They are not available for students studying on a part-time basis. For more details visit nscg.ac.uk/finance

Progression:

The HNC is equivalent to the first year at university and is a recognised Level 4 qualification. On completion of the Level 4, students may choose to progress onto a Level 5 HND which is equivalent to the second year of a Bachelors degree. The Level 5 course is offered subject to numbers and could be offered at either Newcastle or Stafford campuses. On completion of the Level 5, there is an exciting option to 'Top-up' to a full degree.
