

Level 2 Diploma in Electrical Installation

Course Level: Level 2

Campus: Newcastle

Subject Type: Construction & Engineering

Course Overview:

Learn about electrical principles, regulations and safety procedures in compliance with industry standards. Develop hands-on expertise in installing wiring systems, circuits and electrical components.

What's Covered:

This programme is designed to cater for the budding Electrician who wants a predominantly practical experience and who is looking to progress to the workplace. The aim of the programme is to provide you with a range of practical engineering/electrical work skills. This qualification is required if you wish to advance to the Advanced Apprenticeship in Electrotechnical at Level 3 or to the Full-time Level 3 Diploma in Electrical Installation at Newcastle and Stafford Colleges Group.

Entry Requirements:

As a condition of being offered a place on this course, you would be expected to meet the following entry requirements:

- Submit a school report showing your attendance, behaviour and effort details
- You will need to achieve/have achieved GCSEs at grade 4 or above in Maths and a grade 3 or above in English Language.

Assessment Information:

Throughout the programme you will be continually assessed and monitored by fully qualified assessors who will look at your work, observe your performance and test your knowledge and constantly provide additional support and feedback which will enable your achievement. During this time you will be required to build up a portfolio of evidence of achievement.

Fees and Financial Support:

This course is free for anyone aged 16 – 18.

College Maintenance Allowance (CMA):

Anyone with a gross household income under £35,000 can receive financial support to cover college related costs such as transport, meals, course equipment and uniform. Bursary support is based on individual circumstances and will be allocated to best suit your individual needs. A range of other financial support is available depending on your personal circumstances. For more details visit nscg.ac.uk/finance

Progression:

If you successfully achieve this qualification we will then discuss with you the possibility of advancement to an Apprenticeship.

What else do I need to know?

Attendance to our departmental Experience Day in June 2026 will be an entry requirement onto any course within the Construction and Engineering department.
