

## Work Experience at NSCG

NSCG is committed to enhancing life opportunities for young people in our local areas. As part of this we can accommodate students from year 10 and 11 on work experience, usually on a block placement of no longer than one week, or an extended placement of one day per week over several weeks. The departments that could offer experience include libraries, reception, marketing, the college shop, catering, reprographics, sports centre, Lego studio and others. Depending on requirements, we may be able to offer a continuous placement in one department or a carousel taster experience.

If you would like to do your work experience at NSCG please email [industryplacements@nscg.ac.uk](mailto:industryplacements@nscg.ac.uk) and include the following details:

- Your name, year group and school
- The subjects you are taking at school with predicted grades (if known)
- Any career ambitions (if known)
- Why you want to do your work experience with us
- The dates you are hoping to come

This will help us to match you with a suitable placement.

We cannot guarantee that placements will be available, especially at certain times of the year. Usually departments will not be able to accommodate more than one student at a time so we will operate a strictly first come first serve basis.
